Haji Akhundzada

MSc graduate in Data Science and Artificial Intelligence (UFAZ), focused on applied machine learning and recommendation systems. Built and deployed a content-based recommender system in Python (Pandas, Scikit-learn, Gradio) and completed a Data Science internship covering machine learning, deep learning, and big data fundamentals. Comfortable across the data pipeline, from SQL-based data management to building web interfaces with React, Java, and Spring Boot.

PROJECTS

Menu Recommendation System
MSc Dissertation, UFAZ
2025

– Built a content-based recommendation engine in Python (Pandas, Scikit-learn) over a 167-item restaurant menu dataset spanning 8 categories, with an interactive Gradio interface for calorie- and allergen-aware suggestions.

MovieLens Recommender System
Independent Project
2025

– Implemented content-based and collaborative filtering approaches on the MovieLens ratings dataset to generate personalized movie recommendations.

WORK EXPERIENCE

Data Science Intern
QSS Analytics
02/2025 – 05/2025

– Completed a 3-month Data Science internship covering Python for Data Science, Machine Learning, Deep Learning, and an introduction to Big Data.

B2C Manager
TEZİŞH Startup
08/2024 – 09/2024

– Coordinated weekly operational plans with a cross-functional team, tracking task completion and priorities to keep business processes on schedule.

Coordinator of Projects
NEV Telecom LLC
05/2024 – 07/2024

– Built and validated GIS-based maps against structural requirements, identifying and correcting data errors to maintain spatial database accuracy.

University Internship
National Aerospace Agency (NASA)
02/2023 – 07/2023

– Documented and presented technical research findings in structured reports for internal review.

SKILLS

Data Science / ML
Python | R | SQL | Pandas | NumPy | Scikit-learn

Backend
Java | C# | Node.js | Spring

Frontend
JavaScript | React | HTML5&CSS3

Tools
Git/Version Control

EDUCATION

Master of Science (MS)
French-Azerbaijani University
09/2023 – 07/2025 *12.158 / 20 GPA*
Field
– Data Science and Artificial Intelligence

Bachelor of Science (BSc)
Azerbaijan State Oil and Industry University
09/2019 – 07/2023 *91.9 / 100 GPA*
Field
– Computer Engineering

CERTIFICATES

Programming for Everybody (Getting Started with Python)
View Certificate

Databases and SQL for Data Science with Python
View Certificate

LANGUAGES

Azerbaijani
Native or Bilingual Proficiency

English
Full Professional Proficiency
