

Haji Akhundzada

Results-driven machine learning engineer with hands-on experience in Python’s data science stack (Pandas, NumPy, Scikit-learn) and frameworks like TensorFlow and PyTorch. Skilled in data preprocessing, feature engineering, and deploying models for classification, regression, and clustering. Adept at data visualization, SQL management, and building user-friendly web interfaces with HTML, CSS, JavaScript, React, and backend tools like Java and Spring Boot.

WORK EXPERIENCE

B2C Manager

TEZİŞH Startup

08/2024 – 09/2024

- Collaborated with team members to develop structured weekly plans for business operations.

Coordinator of Projects

NEV Telecom LLC

05/2024 – 07/2024

- Created GIS-based maps for designated areas following specific structural requirements.
- Analyzed and corrected mapping errors, ensuring accuracy and consistency in data representation.

University Internship

National Aerospace Agency (NASA)

02/2023 – 07/2023

- Prepared technical reports and presentations on research findings.

EDUCATION

Master of Science (MS)

French-Azerbaijani University

09/2023 – 07/2025

20 / 12.158 GPA

- Data Science and Artificial Intelligence

Bachelor of Education (BEd)

Azerbaijan State Oil and Industry University

09/2019 – 07/2023

100 / 91.9 GPA

- Computer Engineering

SKILLS

Data Science / ML

Python R SQL Pandas NumPy Scikit-learn

Backend

Java C# Node.js Spring

Frontend

JavaScript React HTML5&CSS3

Tools

Git/Version Control

ADDITIONAL SKILLS

Data cleaning, preprocessing, and exploration

Data Visualization

Machine learning algorithms (classification, regression, clustering)

Deep Learning (TensorFlow, PyTorch, Keras)

CERTIFICATES

Programming for Everybody (Getting Started with Python)

[View Certificate](#)

Databases and SQL for Data Science with Python

[View Certificate](#)

LANGUAGES

Azerbaijani

Native or Bilingual Proficiency

English

Full Professional Proficiency

Russian

Elementary Proficiency

French
